REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

For independent claim 1, the Examiner has been unable to find suitable prior art that teaches a method in a computer system for indicating direct and indirect relationships among a plurality of data records in a data repository to a designated record, each record having a plurality of data fields with values. In particular, the prior art does not teach "using the set of directly-related records, automatically determining from the plurality of data records a potential family of records that includes the set of directly-related records and records that are indirectly related to each other through a plurality of designated data fields."

2. For independent claims 9 and 30, the Examiner has been unable to find suitable prior art that teaches a method in a computer system for indicating a family relationship among a plurality of data records in a data repository to a designated record, each record having a plurality of data fields with values. In particular, the prior art does not teach "automatically determining a set of data records from the plurality of data records that relate directly to the designated record and data records that relate indirectly to the designated record."

3. For independent claim 41, the Examiner has been unable to find suitable prior art that teaches a record management system. In particular, the prior art does not teach "automatic de-duplication engine that, upon receiving a designated data record, automatically determines a set of data records from a plurality of data records in a data repository that relate directly to the designated record and data records that relate indirectly to the designated record."

CONCLUSION

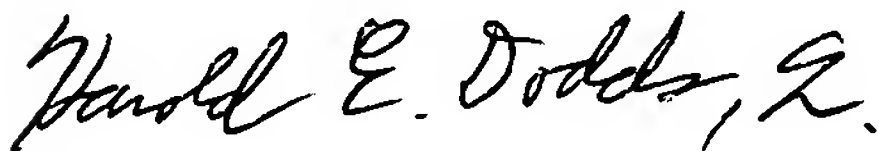

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
